ADAMSVILLE, R. I.

NEW ENGLAND EDITION

"Steal thou, bright maid, the morning's blush,
The sunset's ruddy glow;
To greet the nations as they come,
To bless them as they go."

WASHINGTON.

LAFAYETTE

BARTHOLDI.

THE BARTHOLDI STATUE.—The Bartholdi Statue of Liberty on Bedloe's Island, New York Harbor, a present to the United States by citizens of France, was dedicated, with imposing ceremonies, October 28, 1886. This colossal statue was 3 1-2 years in construction.

DIMENSIONS.	FEET.	IN.
Height from base to torch.....	151	1
Foundation of pedestal to torch.....	305	6
Heel to top of head.....	111	6
Length of hand.....	16	5
Index finger.....	8	0
Distance across the eye.....	2	6

DIMENSIONS.	FEET.	IN.
Length of nose.....	4	6
Right arm, length.....	42	0
Right arm, greatest thickness.....	12	0
Thickness of waist.....	35	0
Height of pedestal.....	89	0

The statue weighs 450,000 pounds, or 225 tons. The bronze alone weighs 200,000 pounds. Forty persons can stand comfortably in the head, and the torch will hold twelve people.

1857

1894

In Constant Use
FOR
Thirty-Seven Consecutive Years.

THE LEADING FERTILIZER THROUGHOUT THE COUNTRY.

IN all practical FIELD TESTS (cost of the Fertilizers and other conditions being equal), the E. FRANK COE goods are always found in the lead.

The popularity of the E. Frank Coe Fertilizers has been of steady growth, and is based upon their acknowledged superiority as reliable crop producers ; and this popularity is in no degree diminished or abated by the lapse of time, as the *testimonials* in the following pages of this pamphlet fully attest.

We desire here to express our sincere gratitude to the host of farmers throughout the land, who have for so many successive years continued to use these brands of Fertilizers with the regularity of the returning seasons ; and also to that large number of merchants and dealers, in all parts of the country, many of whom have handled these goods from twenty-five to thirty-five years, and who are to-day among our best customers, are our grateful acknowledgments due.

The time, money and labor spent in placing the E. FRANK COE brands in the enviable position they now hold in the trade, should be a sufficient guarantee that their good name and continued popularity are assured.

E. Frank Coe Company,

133 to 137 Front St., New York City.

E. FRANK COE'S

GENUINE

High Grade Ammoniated

Bone Super-Phosphate.

A High Grade Fertilizer that has been in use Thirty-seven Years.

GUARANTEED ANALYSIS :

	Nitrogen,	- - - - -	2	per cent.
Equivalent to:—	Ammonia,	- - - - -	2½ to 3	"
	Soluble Phosphoric Acid,	- - - - -	7 to 9	"
	Reverted	" - - - - -	2 to 3	"
	Insoluble	" - - - - -	2 to 3	"
	Total available Phosphoric Acid,	- - - - -	9 to 12	"
	Potash, K ₂ O (Actual),	- - - - -	1.85	
Equivalent to:—	Sulphate of Potash,	- - - - -	3 to 4	"

Put up in 100 lb. and 167 lb. Bags and 250 lb. Barrels.

E. FRANK COE'S

AMMONIATED

Bone Super-Phosphate.

(STANDARD GRADE.)

THIRTY-SEVEN YEARS IN USE.

—GUARANTEED ANALYSIS:—

	Nitrogen,	- - - - -	1¾ to 2¼	per cent.
Equivalent to:—	Ammonia,	- - - - -	2 to 2½	"
	Soluble Phosphoric Acid,	- - - - -	6 to 8	"
	Reverted	" - - - - -	2 to 3	"
	Insoluble	" - - - - -	1 to 2	"
	Total available Phosphoric Acid,	- - - - -	8 to 10	"
	Potash, K ₂ O (Actual),	- - - - -	1.85	
Equivalent to:—	Sulphate of Potash,	- - - - -	2 to 3	"

Put up in 100 lb. and 167 lb. Bags, and 250 lb. Barrels.

E. FRANK COE'S

CELEBRATED HIGH GRADE

POTATO FERTILIZER

GUARANTEED ANALYSIS:

	Nitrogen,	- - - - -	2.40	per cent.
Equivalent to:--	Ammonia,	- - - - -	2½ to 3½	"
	Soluble Phosphoric Acid,	- - - - -	6 to 8	"
	Reverted	- - - - -	2 to 3	"
	Insoluble	- - - - -	1 to 2	"
	Total available Phosphoric Acid,	- - - - -	8 to 10	"
	Potash, K ₂ O (Actual),	- - - - -	6 to 7	"
Equivalent to:--	Sulphate of Potash,	- - - - -	11 to 13	"

Put up in 250 lb. Barrels, 100 and 167 lb. Bags.

E. FRANK COE'S

CELEBRATED SPECIAL

POTATO FERTILIZER

GUARANTEED ANALYSIS:

	Nitrogen,	- - - - -	1.65 to 2.50	per cent.
Equivalent to:--	Ammonia,	- - - - -	2 to 3	"
	Soluble Phosphoric Acid,	- - - - -	7 to 9	"
	Reverted	- - - - -	2 to 3	"
	Insoluble	- - - - -	2 to 3	"
	Total Available	- - - - -	9 to 12	"
	Equal to Bone Phosphate of Lime,	- - - - -	24 to 28	"
	Potash K ₂ O (Actual),	- - - - -	3.50	"
Equivalent to:--	Sulphate of Potash,	- - - - -	6 to 8	"

Put up in 250 lb. Barrels, 100 and 167 lb. Bags.

HIGH GRADE Special Tobacco Grower. WRAPPER BRAND.

GUARANTEED ANALYSIS:

	Nitrogen,	- - - - -	5.75 to 7.40 per cent.
Equivalent to:—	Ammonia,	- - - - -	7 to 9 “
	Available Phosphoric Acid,	- - - - -	7 to 9 “
	Potash K ₂ O (Actual)	- - - - -	7 to 9 “
Equivalent to:—	Sulphate of Potash,	- - - - -	13 to 16 “

Put up in 100 lb. and 167 lb. Bags.

SPECIAL Tobacco Fertilizer. NEW ENGLAND BRAND.

GUARANTEED ANALYSIS:

	Nitrogen,	- - - - -	3 to 4 per cent.
Equivalent to:—	Ammonia,	- - - - -	4½ to 5 “
	Soluble Phosphoric Acid,	- - - - -	6 to 8 “
	Precipitated Phosphoric Acid,	- - - - -	2 to 3 “
	Total Available Phosphoric Acid,	- - - - -	8 to 10 “
Equivalent to:—	Bone Phosphate Available,	- - - - -	17 to 22 “
	Potash K ₂ O (Actual)	- - - - -	5 to 6 “
Equivalent to:—	Sulphate of Potash,	- - - - -	9 to 11 “

Put up in 100 lb. and 167 lb. Bags.

E. FRANK COE'S CELEBRATED Grass and Grain Fertilizer

GUARANTEED ANALYSIS:

	Nitrogen,	- - - - -	80 to 1.65 per cent.
Equivalent to:—	Ammonia,	- - - - -	1 to 2 “
	Soluble Phosphoric Acid,	- - - - -	7 to 8 “
	Reverted	- - - - -	2 to 3 “
	Insoluble	- - - - -	1 to 2 “
	Total Available Phosphoric Acid,	- - - - -	9 to 11 “
Equivalent to:—	Bone Phosphate of Lime,	- - - - -	24 to 26 “
	Potash K ₂ O (Actual)	- - - - -	1.35 to 1.90 “
Equivalent to:—	Sulphate of Potash,	- - - - -	2½ to 3½ “

Put up in 100 lb. Bags and 250 lb. Barrels.

COLUMBIAN BRAND

Ammoniated Bone Super-Phosphate.

GUARANTEED ANALYSIS:

	Nitrogen,	- - - - -	1	to	1½	per cent.
Equivalent to:—	Ammonia,	- - - - -	1½	to	2	"
	Soluble Phosphoric Acid,	- - - - -	7	to	9	"
	Reverted	" - - - - -	2	to	3	"
	Insoluble	" - - - - -	2	to	3	"
	Total available Phosphoric Acid,	- - - - -	9	to	12	"
	Potash, K ₂ O (Actual),	- - - - -	1.85			
Equivalent to:—	Sulphate of Potash,	- - - - -	3	to	4	"

Put up in 100 and 167 lb. Bags.

E. FRANK COE'S

NO. 1, BEST GRADE

PURE GROUND BONE.

GUARANTEED ANALYSIS:

	Nitrogen,	- - - - -	2¾	to	3	per cent.
Equivalent to:—	Ammonia,	- - - - -	3½	to	4	"
	Phos. Lime,	- - - - -	50	to	55	"
Equivalent to:—	Phosphoric Acid,	- - - - -	28	to	30	"

E. FRANK COE'S

Ground Bone and Potash.

GUARANTEED ANALYSIS:

	Nitrogen,	- - - - -	2	to	2½	per cent.
Equivalent to:—	Ammonia,	- - - - -	2½	to	3½	"
	Bone Phosphate of Lime,	- - - - -	24	to	26	"
	Potash, K ₂ O (Actual),	- - - - -	2.75			
Equivalent to:—	Sulphate of Potash,	- - - - -	4	to	5	"

Put up in 167 lb. Bags.

E. FRANK COE'S Red Brand Excelsior Guano

The most highly concentrated and best Bone Fertilizer in use; and for Market Gardening purposes it has no equal in this country.

GUARANTEED ANALYSIS:

	Nitrogen.	- - - - -	3½ to 4	per cent.
Equivalent to:—	Ammonia,	- - - - -	4 to 5	"
	Soluble Phosphoric Acid,	- - - - -	7 to 9	"
	Reverted	- - - - -	2 to 3	"

CHEMICAL ANALYSIS.

Chemical Analyses are important in a way, but can not be relied upon to show the true Agricultural value of a Fertilizer.

A Chemical Analysis will indicate the plant element in a Fertilizer, but it will not show the materials from which those elements are derived, which is of the greatest importance, as many materials found by analysis to represent plant food elements are worthless as Fertilizing or Manurial substances. Therefore, while an Analysis may give the Chemical constituents of a Manure, it fails utterly to show its Agricultural value. For this reason Fertilizers with the same chemical analysis often produce different results when tested in the field. Only the manufacturer can say from what source he derives the elements of plant food contained in his goods. In this, more than anything else, lies the great success of the **E. FRANK COE FERTILIZERS**, as in their manufacture only the highest grade and most valuable crop producing materials are used, and in such quantities and proportions as **THIRTY-SEVEN YEARS** of practical and successful experience has proven to be the best.

Money Valuation of Fertilizers.

BY PROFESSOR W. O. ATWATER.

It is impracticable to estimate the agricultural value of a fertilizer from its chemical composition. An unfortunate tendency of money valuations is to call attention away from the composition of the fertilizer, which is the important matter, and direct it to a standard which is often of doubtful accuracy, if not positively wrong. As a result, not only does the farmer get wrong impressions in place of right ones, but honest dealers are harassed and sometimes pecuniarily injured by incorrect valuation of their wares.

State Experiment Station Valuations.

State Valuations are often misleading. First, because they are based on Chemical analysis, and take little or no account of the materials used. And again, when one considers the small amount of any Fertilizer subject to analysis, and the great chances for error in Analytical determinations, it can be plainly understood how one Fertilizer may get an unusually favorable Analysis, or valuation, and another a very unfavorable one. In fact, a number of samples drawn from the same stock and brand at any point, or in different sections of any state, will be found to show a difference in Analysis and valuation from one to three dollars a ton, even figuring on the same basis of valuation. Those who pursue a policy of publishing Analyses and Valuations of their own goods, comparing them often with the lowest valuation of their competitors, select the highest valuation of their own goods, and put these forward as the general standard of their Fertilizers. We have been able to build up a large business, and have earned a national reputation for making standard and reliable goods without resorting to this method of advertising. Our goods are always uniform in quality and value, and are made the same from one year to another, and are what we represent them to be.

Increases the Cash Returns.

PRESIDENT W. I. CHAMBERLAIN, of Iowa Agricultural College, says, in regard to Commercial Fertilizers :—

“Less than \$1,000,000 per annum paid for Commercial Fertilizers in Ohio have served, directly or indirectly, to increase the cash returns of wheat in that State to the average amount of over \$18,000,000 per year now for nine years. At least all other contributing influences have remained pretty nearly uniform while this one new factor or influence has been introduced.”

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
FINE AND DRY!**

TESTIMONIALS

FROM THE STATES OF

MAINE, NEW HAMPSHIRE and VERMONT

POTATO MANURE—BEST EVER USED.

E. FRANK COE Co.: PRESQUE ISLE, Maine. August, 1893.

DEAR SIR:—I have used your special Potato Fertilizer on my farm on trial with other brands sold in this market, and I am convinced that it is the best Potato Manure that I have ever used. I believe it is the best thing in the market and do not hesitate to recommend it to my friends.

Yours truly, **WOODFORD BROWN.**

CHANGED OPINION.

CHAS. F. CURTIS, Agt.: CHASE'S MILLS, Me., Sept. 8, 1892.

DEAR SIR:—I have used Coe's High Grade Fertilizer three seasons, and consider it superior to any other kind I have used; previously thought there was nothing equal to Bradley's.

Yours, etc., **BENJ. JORDAN.**

MORE THAN SATISFIED.

MESSRS. E. FRANK COE Co.: GORHAM, Maine, Sept. 15, 1893.

DEAR SIR:—I have received yours of September 6. In reply will say that, owing to the drouth. this has been a bad season here to test fertilizers. But as far as I have been able to find out, your fertilizers have given satisfaction with the farmers, some are more than satisfied with the results. I found your fertilizers fine and dry and as well prepared as any that I have ever used. I think we shall need more of it about nere if you keep the quality up.

Yours truly, **E. H. F. SMITH.**

SATISFACTION EVERY TIME.

C. F. CURTIS, Esq.: NORTH AUBURN, Me., Aug. 25, 1891.

DEAR SIR:—The Coe's High Grade Phosphate which I bought of you last Spring has proved entirely satisfactory. I have used Coe's Phosphate for the last five years, and have received entire satisfaction every time.

Yours truly, **ANSEL BRIGGS.**

NO LACK OF CONFIDENCE.

MR. E. FRANK COE: WEST LEBANON, Me., Sept. 24, 1892.

DEAR SIR:—I have used your Fertilizer for two years and can recommend it to others with great confidence.

Yours very truly, **SAMUEL SHAPLEIGH.**

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
FINE AND DRY!**

COE'S IS AHEAD NINE TIMES OUT OF TEN.

E. FRANK COE CO.: SKOWHEGAN, Me., Oct. 4, 1893.

DEAR SIR:—We have used your Fertilizers extensively heretofore, and from our experience with them and with others we consider them to be the best goods we have ever tried. We should give them the preference over Bradley's X. L. We shall want a carload of your goods the coming season for our own use.

TUTTLE BROTHERS.

COE'S THE BEST.

C. F. CURTIS, Agent: CHASE'S MILLS, Me., Sept. 3, 1891.

DEAR SIR:—I have used Coe's Fertilizer sold by you, by the side of Bradley's and Cumberland, and I consider Coe's the best. It works satisfactorily for all crops.

Yours very truly,

HOWARD T. CONANT.

BEST OF RESULTS.

E. FRANK COE CO.: NEWPORT, Me., Sept. 18th, 1893.

I have used your Standard and High Grade Fertilizer on my corn, beans and potatoes this season with the best of results, and consider your fertilizer superior to those I have used in previous years.

Very truly,

D. C. TRAFTON.

BEST ON THE MARKET.

E. FRANK COE: E. AUBURN, Me., Sept. 3, 1892.

DEAR SIR:—I have used your High Grade Fertilizer, purchased of your agent, Chas. F. Curtis, two years, and consider it the best on the market.

Respectfully yours,

FRANK A. TOWNSEND.

ALL GOOD, COE'S BEST.

C. F. CURTIS, Esq.: EAST AUBURN, Me., Sept. 1 1892.

DEAR SIR:—In reply to your inquiry, we would say that the Coe's High Grade Phosphate we bought of you proved very satisfactory. The crop is not only better, but it matures earlier. We think most phosphates are good, but Coe's is the best.

Respectfully yours,

J. H. & J. A. TURNER.

COE'S GOODS AHEAD.

E. FRANK COE CO.: PRESQUE ISLE, Maine, August, 1893.

DEAR SIR:—After experimenting with fertilizers I have come to the conclusion that your goods are first-class in every respect. My own experience convinces me that in the field your goods are a little ahead of anything that I have tried. I intend to use a large quantity the coming season, and willingly recommend the E Frank Coe Potato Fertilizer.

Yours truly,

M. L. HARRIS.

MANY TRIED, COE'S BEST.

MR. CURTIS: EAST AUBURN, Me., Oct. 26, 1891.

SIR:—I bought of you last year 200 of Coe's High Grade Phosphate and this year 800, and I consider it the best that I have ever used, and I have tried several different kinds the last nine years.

CYRUS HALL.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
— FINE AND DRY! —**

PERFECTLY SATISFACTORY.

MR. E. FRANK COE:

UNION, Me., Aug. 24, 1892.

DEAR SIR:—I have used your brand of phosphate the past season, being the first time for thirty years, when it was used quite extensively in this section. It has proved perfectly satisfactory, and I consider it in every way of the highest quality and thoroughly reliable.

Yours respectfully

A. S. TOLMAN.

LIKES NO OTHER BETTER.

E. FRANK COE:

UNION, Me., Aug. 24, 1892.

DEAR SIR:—I have used your high grade fertilizer this year for corn and have as stout, heavy pile of corn as will be found anywhere. I have had no fertilizer that I liked better than yours.

ROYAL GRINNELL.

WILL USE NO OTHER.

UNION, Me., Aug. 23, 1892.

I have used E. Frank Coe's high grade and standard fertilizers this year, and like them so well that I shall use no other next year.

C. M. SHEPARD.

COE'S RAISED BEST SWEET CORN DELIVERED CANNING FACTORY.

D. C. TRAFTON:

NEWPORT, Me., Sept. 20th, 1893.

DEAR SIR:—The ton of E. Frank Coe High Grade Phosphate I purchased of you gave very satisfactory results. In three months produced the heaviest sweet corn delivered at the Newport canning factory for the season.

W. A. FRYE.

NORTH BERWICK, Me.

MESSRS. CONVERSE & HAMMOND:

GENTLEMEN:—In reference to the E. Frank Coe Phosphate I bought of you last spring, I used it on potatoes, cucumbers, cabbage, blackberries and sweet corn. I have used all the leading brands of fertilizers during the past twenty years, and I consider the E. Frank Coe Phosphate the best I have ever used. I had the best crop of cabbage in this section, and where I used it on berries the result far exceeded anything I had ever seen. I cheerfully recommend it to my friends and acquaintances as the best phosphate on the market.

Yours truly, BRACKET HALL.

MORE POTATOES IN THE HILL.

PRESQUE ISLE, Maine, August, 1893.

I have never yet used any of the E. Frank Coe Potato Fertilizer, but I have seen results from its use on neighboring farms. Wherever the matter has come to my attention, I have noticed that there were always more potatoes in the hill where the E. Frank Coe was used, and I am so well satisfied that it is a reliable article that I intend to use no other the coming season.

S. G. GREENLAW.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
FINE AND DRY!**

E. FRANK COE, Esq.:

WEST SCARBORO, Me., Sept. 30, 1889.

DEAR SIR:—I bought High Grade Fertilizer last spring of your agent, Mr. Waterhouse, and I received the largest returns from it that I ever received from fertilizer, and I have used about all kinds, and will say that yours is far ahead of anything I ever used in the shape of a fertilizer. I planted a piece of sweet corn as follows: I put a coat of stable manure on a piece of ground, harrowed it in, and used the fertilizer in drill. I planted a few drills at first with the fertilizer, and then skipped five drills and did not put any in; then I put balance of the Fertilizer in; and you could see the difference from the time it came up until it was gathered last of the season; corn, where the fertilizer was used, stood nearly two feet higher, and the ears were large and well filled; but where there was no fertilizer, the ears were small, and but a few of them. I can safely say that there was a third if not more weight of corn where the fertilizer was used.

Yours truly,

EUGENE MILLS.

MR. SAMUEL H. FITTS:

FREEPORT, Me., Sept. 6, 1889.

I planted potatoes on old pasture land, using Pacific Guano and Coe's High Grade Fertilizer, and the result was surely one third better where I used E. Frank Coe's High Grade. For my corn I used Buffalo and High Grade, and E. Frank Coe's gave the best satisfaction.

Yours,

DAVID HUSTON.

E. FRANK COE, Esq.:

WEST SCARBORO, Me., Sept. 10, 1890.

DEAR SIR:—Last spring I bought some of your High Grade Fertilizer of Mr. E. L. Waterhouse, your agent here, and used it on all of my crops, with good results, and used it in laying down a piece of ground, and received the best returns that I ever received from any fertilizer that I ever used, and would recommend it to my friends as the fertilizer to use, as I think it is the best.

Yours truly,

W. V. ROBINSON.

IN EVERY PARTICULAR.

MR. E. FRANK COE:

NORTH BERWICK, Me., Aug. 25, 1890.

DEAR SIR:—The High Grade Phosphate we bought of your agent, H. P. Nowell, has proved satisfactory to us in every particular. We can highly recommend it to our friends.

Very truly yours,

W. J. & J. F. WEYMOUTH.

THE BEST SWEET CORN AND FIRST ORDERED TO THE FACTORY.

MR. E. FRANK COE:

JEFFERSON, Maine, Sept. 13, 1893.

DEAR SIR:—During the past four years I have raised fourteen acres of beans with corn, using the leading brands of fertilizers sold in our vicinity. In 1890 used mostly Williams & Clark's, 1891 mostly Bradley's, 1892 Williams & Clark's, 1893 E. Frank Coe's. Bradley's was good, Williams & Clark's better, but Coe's was *best*. The present season I have raised three and one-half acres of sweet corn for the canning factory. The company's agent examined it the last of August and said, of more than one hundred acres, mine was the most even and best large piece, and was the first ordered to the factory, all owing to Coe's Fertilizer.

B. F. KNIGHT.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
FINE AND DRY!**

ORDERS DOUBLE.

E. FRANK COE Co. : SMYRNA MILLS, Me., Sept. 15, 1893.
GENTS:—The Fertilizer that I bought of you last year has given excellent satisfaction. I feel perfectly safe in doubling my order for the coming year. I know those that used it this year will want it next year. My potatoes raised with this Fertilizer yield well, are uniform in size and of fine quality. Yours truly, J. E. TARBELL.

GOOD FOR ALL CROPS.

MR. E. FRANK COE : NORTH BERWICK, Me., Aug. 25, 1890.
DEAR SIR:—The High Grade Fertilizer we bought of your agent, H. P. Nowell, has given us perfect satisfaction. We have used it for corn, potatoes, cucumbers and other things in connection with our greenhouse. Yours respectfully, C. E. NEAL & CO.

PLEASURE IN RECOMMENDING THEM.

PRESQUE ISLE, Me., August, 1893.
I take pleasure in recommending E. Frank Coe's Special Potato Fertilizer as a first-class article, and intend to use it the coming season. FRANK HAYWARD.

FINE AND DRY AND THE BEST.

PRESQUE ISLE, Me., August, 1893.
I have used E. Frank Coe's Special Potato Fertilizer in connection with other brands sold in this market, and I believe Coe's to be the best. It has always been in good mechanical condition, fine and dry, and works well in the planter, and the coming season I shall use no other brand. ISAAC L. CLARK.

POTATOES.

**65 BUSHELS POTATOES ON 1-8 ACRE, OR AT THE RATE OF 520
BUSHELS TO THE ACRE.**

MR. E. FRANK COE : BUCKSPORT, Me., Sept. 18, 1891.
DEAR SIR:—I have used your fertilizer for two years, and think it the best I have ever used. From two hundred and fifty pounds of the High Grade, on one-eighth of an acre, I raised 65 bushels of potatoes, and at the rate of 520 bushels per acre. Your fertilizers have given good satisfaction to all that I have sold them to. Yours truly, L. T. RICH.

SWEET CORN.

RETURN \$72 PER ACRE.

MR. E. FRANK COE : FREEPORT, Me., Sept. 8, 1890.
DEAR SIR:—Last spring I applied your High Grade Ammoniated Bone Super-Phosphate to my sweet corn, without any other fertilizer or manure, and raised the finest crop I ever grew, realizing seventy-two dollars per acre. Yours truly, JOSHUA C. SOULE.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.**

FINE AND DRY!

ALWAYS SHOWS BEST.

E. FRANK COE CO.:

PRESQUE ISLE, Maine, August, 1893.

DEAR SIR:—I have used your Potato Fertilizer on my farm, testing it side by side with other goods sold in this market, and so far it has always shown the best results. It is a very good fertilizer to use in the planter, being fine and dry and in good drilling condition, which is quite a consideration. Next year I intend using only your goods, and am satisfied that you manufacture a reliable article and that your goods will find an increased sale in this section.

J. B. LONG.

COE'S GRASS AND GRAIN BRAND BEATS THEM ALL.

MESSRS. E. FRANK COE CO., New York: APPLETON, Me., Oct. 1893.

DEAR SIR:—Your Grass and Grain Brand is giving splendid results in this section. This year in several instances it has beaten a good dressing of stable manure on same crops and same land, and without an exception it has given better results than other fertilizers, some of which cost \$5 00 ton more. Men who had half a ton this year are ordering 3 and 4 tons for 1894. This is the best recommendation your goods could have.

Yours truly,

JEFFERSON DAVIS.

BEST AFTER FAIR TRIAL.

E. FRANK COE CO.:

ST. ALBANS, Me., Sept. 20, 1893.

I have used large quantities of your fertilizers for the past two years, having given them a fair and impartial trial on a variety of crops, and think they have given me better results than any fertilizers I have ever used.

D. W. WHEELER.

WITH GOOD SUCCESS.

E. FRANK COE CO.:

PLYMOUTH, Me., Sept. 19th, 1893.

I have used your fertilizer on corn and potatoes with good success. It is as good as any I ever used.

ANDREW HICKS.

GAIN MORE THAN 100 PER CENT.

E. FRANK COE CO.:

PATTEN, Maine, August, 1893.

DEAR SIR:—Three years ago, on a piece of timothy, in the town of Crystal, I applied at the rate of 400 pounds of your Grass and Grain Fertilizer to the acre. At that time I could not cut a ton of grass to the acre; this year many of my friends say it is the best piece of grass in this section. It cut over two tons to the acre, which is the best crop cut during the three years. Since applying the fertilizer the land has not had a pound of manure or fertilizer of any kind. This convinces me that Coe's Grass & Grain brand has staying qualities and is the right thing in the right place.

S. W. ROBBINS.

COE'S THE BEST EVER USED.

E. FRANK COE:

SMYRNA MILLS, Me., Sept. 15, 1893.

DEAR SIR:—I used your Special Potato Fertilizer this year and consider it the best fertilizer I ever used; I have tried several kinds and have used fertilizers for a number of years.

Yours respectfully,

WM. ANDERSON.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
FINE AND DRY!**

WILL USE NO OTHER.

E. FRANK COE CO.:

DYER BROOK, Me., Sept. 18, 1893.

DEAR SIR:—I used your Fertilizers this season with other kinds. I like yours and shall use no other next season.

Yours,

J. R. TARBELL.

IN TERMS OF PRAISE.

E. FRANK COE CO.:

HAVERHILL, N. H., Sept. 15th, 1893.

Yours duly received, and in reply will say that all who have used your goods speak in their praise, C. L. Steavens of Piermont saying it is the best he ever used. Have just sold one ton of Special Grass to seed down on to be used on about $2\frac{1}{2}$ acres; have sold about 9 tons in all to date. I think I have sold about as much as any one agent.

Yours truly,

O. S. TAYLOR.

**FROM A LEADING FARMER AND MARKET GARDENER WHO LAST
YEAR RAISED 30 ACRES OF SQUASHES WITH THE
E. FRANK COE PHOSPHATE.**

MANCHESTER, N. H., Sept. 6, 1892.

Messrs. JOHN B. VARICK & Co., Manchester, N. H.:

GENTS:—In reply to your inquiry, I will say that I have used the E. Frank Coe Phosphate more or less for the past thirty years—*always* when I could get it. Have tested it side by side with about every fertilizer in the market, and it has never failed to show the best results. The past season I used fourteen tons of the E. Frank Coe Phosphate, and next year shall want as much more. There is no doubt in my mind but that the E. Frank Coe is ahead of any fertilizer in the market.

Yours respectfully,

ADAM DICKEY.

ONE OF THE BEST I HAVE EVER USED.

MARVIN T. BLAISDELL:

EAST ROCHESTER, N. H., Sept. 24, 1892.

DEAR SIR:—I have used Coe's Phosphate several years. It is entirely satisfactory, one of the best that I have used.

Respectfully yours,

NATHAN C. SANBORN.

EQUAL TO THE BEST.

MR. E. FRANK COE.

ROCHESTER, N. H., Sept. 10, 1892.

DEAR SIR:—Have used your Super-Phosphate for several seasons, that I purchased from your agent, M. T. Blaisdell, with good results. Have used several kinds of Standard Fertilizers, but consider yours equal to the best.

CHAS. W. ALLEN.

WILL BUY AGAIN.

MR. MARVIN T. BLAISDELL:

ROCHESTER, N. H., Sept. 10, 1892.

DEAR SIR:—I have used more or less of all the leading brands of Super-Phosphates during the last twenty-five years and nearly always with profit. For the last four or five years I have used with much satisfaction, on onions and other vegetables, that made by E. Frank Coe. I shall buy of you for next season's use, the same brand, if you have it for sale.

Yours truly,

EZRA PRAY.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
— FINE AND DRY! —**

BEST CROP TOBACCO, BEST CROP OF ONIONS.

E. FRANK COE CO.:

HINSDALE, N. H., Sept. 8th, 1893.

GENTS:—In regard to your phosphate would say: I have just harvested the best crop of tobacco I ever raised and used nothing but your phosphate, using 22 hundred to the acre. I used Cottonseed Meal and Potash last year, costing \$14.00 more per acre. I also have one acre of onions, the best ever raised by me, estimated 600 bushels, grown on your Phosphate alone, one ton to the acre. This land has had nothing but Phosphate for the last five years. The reason why people do not succeed better with Phosphate, they do not use enough.

Yours,

WALDO ROUILLARD,

Mountainside Farm, Hinsdale, N. H.

BEST TO BE FOUND.

E. FRANK COE:

EAST ROCHESTER, N. H., Sept. 14, 1892.

DEAR SIR:—I have both used and sold your High Grade Phosphate for the past three years, the first year sold and used 7 tons; this year 15 $\frac{3}{4}$ tons. It has given perfect satisfaction for all kinds of crops. Therefore, I can safely recommend it to all farmers and gardeners as being the best Fertilizer they can purchase.

Yours respectfully,

MARVIN T. BLAISDELL.

EXCELLENT RESULTS.

E. FRANK COE, Esq:

ROCHESTER, N. H., Sept. 6, 1892.

DEAR SIR:—I have used your Fertilizers on corn, potatoes and other vegetables for several years with excellent results. I consider them as good as any I ever used. Yours truly,

DUDLEY B. WALDRON.

CORN, 11 FEET, 6 INCHES. BEST POTATOES IN 20 YEARS.

E. FRANK COE:

ROCHESTER, N. H., Sept. 9, 1892.

DEAR SIR:—I have used your Fertilizer the past year with decided results in its favor, used it on barley at the rate of four hundred pounds to the acre; it came up very strong and produced a large crop for the outlay. My potatoes are the best I have had for a score of years. On one piece of fodder corn where I used it with a very slight coat of manure, the corn was unusually heavy, some of it was eleven feet six inches in height. I think I can say that there has been more decided results in its favor than any Fertilizer I have ever used.

Yours truly,

DANIEL L. YOUNG.

AHEAD ALL THE SEASON.

MR. F. COE:

PITTSFIELD, N. H., Oct. 22, 1891.

This is to certify that the manure bought of your agent, F. E. Cram, has given me the best of satisfaction. I used it alongside of other phosphates; yours kept ahead all the season. The difference was so perceptible that some of my neighbors asked me what made it. I will use no other next season, and will recommend it to my brother farmers.

JOHN C. MCINTOSH.

P. S. This is unsolicited and you can use my name.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
— FINE AND DRY! —**

FAIR TRIAL. BEST GOODS.

MR. BLAISDELL:

ROCHESTER, N. H., Sept. 7, 1892.

DEAR SIR:—The Frank Coe's Phosphate we bought of you has given entire satisfaction. After a two years' trial we think it is the best we ever used.

Yours respectfully,

J. A. JACKSON.

THE BEST IN USE.

CHICHESTER, N. H., Sept. 16, 1890.

DEAR SIR:—Having used E. Frank Coe's Super-Phosphate for two seasons, I make no hesitancy in saying, that in my judgment it is the best in use.

Yours truly,

CHAS. H. CARPENTER.

**EXPERIMENT WITH 25 KINDS FERTILIZERS, BY EASTERN N. H.
POMONA GRANGE.**

PITTSFIELD, N. H., March 14th, 1889.

In an experiment with upwards of 25 kinds of concentrated Fertilizers, the E. Frank Coe Phosphate excelled all the other kinds.

MR. E. FRANK COE:

So. CORNISH, N. H., Oct. 3, 1889.

I have used your Phosphate for corn and potatoes, and consider it a first-class fertilizer. Among the fifty or more customers who purchased of me this season, I have not found one who was not satisfied with the result.

A. P. THRASHER.

EAST PLAINFIELD, N. H., Sept. 28, 1889.

E. FRANK COE, Esq :

MY DEAR SIR:—I have this season used your Super-Phosphate, with satisfactory results. Consider it equal to any I have ever used.

Yours respectfully,

FRED. MOULTON.

ALL SAY IT IS THE BEST.

MR. E. FRANK COE :

IRA, Vt., Oct. 14, 1891.

DEAR SIR:—I have used your Corn and Potato Fertilizers with other leading goods, and find yours best of all. I sold some to my neighbors, and they all say it is the best and will use it in the future.

Yours truly,

LEONARD FISH.

1,200 BUSHELS CORN ON 12 ACRES.

BATTLEBORO, Vt., Sept. 2, 1890.

I have used Coe's Super-Phosphate for 5 years, for the various crops that I raise. It has always proved superior to any other phosphate that I have known. The first year that I used it, I raised from 12 acres of land 1,200 bushels of corn in the ear, not over 50 bushels but what were sound, merchantable corn, and all my experience since but strengthens my conviction that "Coe's" beats them all.

DAVID BAILEY.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
FINE AND DRY!**

PERFECT SATISFACTION IN EACH CASE.

H. A. BLAKE, AGENT: SUTTON, Vt., Sept. 15, 1893.

DEAR SIR:—I used 500 pounds of your Special Corn Fertilizer on corn, and 600 pounds of the Special Potato on potatoes, and 700 on grain. In each case I can say that I am perfectly satisfied, and I can recommend E. Frank Coe's Fertilizers to all who want a first-class Fertilizer, for it is as good as there is in this market.

Yours, &c., JOHN H. BENNETT.

A GOOD DEMAND.

E. FRANK COE: POWNAL CENTRE, Vt., Aug. 27, 1890.

DEAR SIR:—I have sold the E. Frank Coe's Phosphate for two years, and used it personally on my farm crop. I find it to be as good a Phosphate as ever I have sold or used, and am having a good demand for your goods.

Yours, W. E. NILES.

IT HAS SUPERIOR QUALITY.

BRATTLEBORO, Vt., Aug. 27, 1890.

MESSRS. C. F. THOMPSON & CO.:

GENTS:—I have used Coe's Super-Phosphate for two years. Previous to that had used other Phosphates, but find Coe's *superior* in results. In '89 I harvested from $\frac{3}{8}$ of an acre 90 bushel of ears, *sound corn*, and the prospect for this year is as good, stalks standing 10 to 11½ feet high, and at this date is ready to harvest. I attribute these results to the superior quality of Coe's Super-Phosphate.

IRVIN BROWN.

19 YEARS.

CHESTER, Vt.

MR. E. FRANK COE:

It affords us pleasure in saying we have sold your Phosphate for nineteen years and that it has run uniformly in quality and invariably given satisfaction to our customers. The demand for it is increasing every year in this vicinity.

Very respectfully, ADAMS & PARK.

EQUAL TO THE BEST IN MARKET.

E. FRANK COE CO.: SUTTON, Vt., Sept. 15, 1893.

DEAR SIR:—I sold your Fertilizers, 4 brands, the past season in this place, the High Grade, the Special for Potatoes, the Special for Corn, and the Ammoniated Bone or Standard. I have in years past sold several kinds of goods, as for nine years I had the entire charge of the business for the Pacific Guano Co. in Vermont and New Hampshire as their Special Agent for the two States. I can say that your Fertilizers have given very general satisfaction here, and I have no doubt but that they are liked as well as anything sold in this section.

Yours, &c., H. A. BLAKE.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
FINE AND DRY!**

VERY WELL PLEASED.

H. A. BLAKE, AGENT :

SUTTON, Vt., Sept. 15, 1893.

DEAR SIR:—I used E. Frank Coe's Special Potato Fertilizer on my Potatoes the past season, also the Special Corn Fertilizer on my Corn. I can say that I am very well pleased with the results in each case. I have no doubt but that the goods are fully equal to any that are sold or used in this section, and I can recommend them to all who wish for first-class fertilizers.

Yours truly,

GEO. W. COLBY, M. D.

FIRST-CLASS IN EVERY RESPECT.

H. A. BLAKE, AGENT :

SUTTON, Vt., Sept. 16, 1893.

DEAR SIR:—I used E. Frank Coe's Special Fertilizer for Potatoes the past season on a piece that had not been plowed for fifty years or more. I broke the ground, using a light coat of manure before breaking the same. I then used the Special Potato in the hill. The results are all that I could desire. The crop is large, the tubers smooth and large, and first-class in all respects. Am more than satisfied with its use. A first-class fertilizer in every respect.

Yours, &c.,

JOHN E. WENTWORTH.

COE'S LEADS.

The following is a practical intelligent field test, seed and fertilizers weighed and the land measured. Results the same as in 9 cases out of every 10; *Coe's Ahead.*

VERMONT ASYLUM FARM, BRATTLEBORO, Vt., Feb. 1891.

C. F. THOMPSON, ESQ., Agent for E. Frank Coe Co.:

DEAR SIR:—I am pleased to say that we have used E. Frank Coe's Fertilizers in experiment with four (4) other brands of fertilizers sold in this market on corn last season. *Coe's* stands at the *Head*. It leads every other kind used. I believe it to be one of the very best, if not *the best Phosphate* in use.

Very truly,

G. W. PIERCE, Farmer.

EXAMINE THE FIGURES.

E. FRANK COE, ESQ.:

MIDDLETOWN SPRINGS, Vt., Sept. 25, 1892.

DEAR SIR:—I used several kinds of fertilizers on potatoes with the following results—45 hills: No fertilizer, $2\frac{1}{2}$ bushels; Ground Bone, 2 bushels; Lister's High Grade, 3 bushels; E. Frank Coe's High Grade, $3\frac{1}{2}$ bushels. My corn is extra fine.

Truly,

E. PRINDLE.

SWEET CORN TEST COE'S AHEAD.

E. FRANK COE CO.:

SHEFFIELD, Vt., Sept. 19, 1893.

I bought of H. A. Blake, your agent at Sutton, 300 lbs. of Special for Corn, and used it on Early Crosby Sweet Corn beside another kind of fertilizer that is used in this section to a great extent, and I can safely say that where I put your fertilizer there was double the corn that there was where the other kind was used. I also used it on India Wheat with very good result. I consider it one of the best sold in this section and that further comments are unnecessary.

Yours truly,

E. D. REESE.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.

TESTIMONIALS

FROM THE STATES OF

MASSACHUSETTS, CONNECTICUT AND RHODE ISLAND.

NO DESIRE TO CHANGE.

DIGHTON, Mass., Sept. 6, 1892.

It gives me pleasure to be able to certify to the continued, uniform, excellent quality of E. Frank Coe's Fertilizers. We have used them quite extensively the present season, and have no desire to change. We find Mr. Coe to be a man of unquestionable business veracity, and duly considerate of those he deals with.

C. W. TURNER.

SALES INCREASING.

E. FRANK COE, Esq.:

TAUNTON, Mass., Sept. 27, 1891.

DEAR SIR:—I have sold your fertilizers for the last few years. My customers seem very much pleased with it, and I have not had the first complaint with it. I sell to them the second time. My sales increase each year, and I have sold more this season than any year before.

Yours truly,

ISAAC DEAN, Agent.

MR. E. FRANK COE:

SOUTH HADLEY, Mass., Sept. 24, 1889.

SIR:—Have used your High Grade Fish and Potash for corn, this season, and am well satisfied with the results as compared with other fertilizers used.

H. T. BROCKWAY.

TWENTY-FOUR YEARS AND NOT A COMPLAINT.

E. FRANK COE CO., New York:

NEW LONDON, Ct., Aug. 23, 1892.

I have sold your E. Frank Coe Phosphate for twenty-four (24) years in this market and have yet to find the first man who has used it to say that he has not had his money's worth. I have used it on my own farm and have always found it a satisfactory and profitable fertilizer to use.

Yours truly,

ARNOLD RUDD.

34 YEARS ON TRIAL

E. FRANK COE CO., New York:

MYSTIC, Conn., Sept. 11, 1893.

DEAR SIR:—Having been in business about 40 years and having for more than 34 years used in our trade your High Grade Ammoniated Bone Fertilizers, we can speak of their merits. We have found them superior to all others, and now handle no other in our business. Still wishing you the success you so richly deserve, we remain,

Yours, &c.,

I. W. DENISON & CO.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
FINE AND DRY!**

ALL WANT COES.

MR. E. FRANK COE:

TYLER CITY, CONN., Aug. 30, 1892.

DEAR SIR:—In reply to yours of Aug. 26 will say that having used and sold your H. G. Phos. for several years, consider it the best goods in market for all crops—a complete fertilizer. All parties I sell to once want it the next year; never have had any one say that they did not get extra good crops from your goods. Some parties have sold to, placed it by side of other goods, costing \$5.00 per ton more than your goods, getting no better results. Hoping I shall have a large trade for your goods this coming season as I have in years past, I remain,

Yours truly,

W. T. ANDREW.

MOST UNIFORM SATISFACTION.

E. FRANK COE, Esq.

PUTNAM, CONN., Aug 30, 1892.

DEAR SIR:—In reply to your inquiry as to the results of our sales of your Fertilizers for the past two years, we would say, that it has given the most uniform satisfaction of any that we have ever handled—and we have sold nearly all of the leading brands in the last twenty-five years. Our customers, almost without exception, have been satisfied with it and this of itself tells the story.

Yours very truly,

JOHN O. FOX & CO.

A FRIEND OF LONG STANDING.

E. FRANK COE Co., New York:

NORWICH, Conn., Aug. 2d, 1893.

GENTLEMEN:—This season makes thirty-six (36) years that we have used your "High Grade" Ammoniated Bone Super Phosphate and selling several hundred tons yearly. It has always been a highly satisfactory fertilizer to my customers. We are now selling largely to the sons of farmers to whom we sold to at first. The slight variation in value as shown by the experiment station reports shows that it is made very uniformly, which is a great consideration to those who use it.

Very truly,

JOHN P. BARSTOW & CO.

COE'S PREFERRED TO ALL OTHERS.

EAST LYME, Conn., Sept. 11, 1893.

E. FRANK COE Co., 133, 135, 137 Front St., N. Y. City:

GENTS:—In reply to your favor I will say I have sold your Phosphate for two years and it has always given satisfaction, and as far as I have been able to learn farmers in this part of the State give it the preference over all others. I endorse your goods now as always. Would like to handle another year.

Truly yours,

JOHN W. KEENEY, JR.

MR. MOSES CHAPMAN IN FAVOR OF COE'S.

OAKDALE, Ct.

I have used fertilizer that cost more money, that was not as good: I am in favor of E. Frank Coe's.

MOSES CHAPMAN.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
FINE AND DRY**

SALES INCREASING.

MR. E. FRANK COE: WALLINGFORD, Conn., Aug. 29th, 1892.

DEAR SIR:—I have used your high grade Fertilizer for grass and corn this year with good results. I shall use more next year. I have also sold it for four years. My sales increase annually.

H. L. HALL.

TOBACCO.

AHEAD EVERY SEASON.

MR. E. FRANK COE: MIDDLETOWN, Conn., Sept. 24, 1890.

DEAR SIR:—We send, by permission, the following from a leading farmer, ———, Portland, Conn.: My tobacco, this year, turned out one-third more, and extra quality, on E. Frank Coe's High Grade Phosphate, than on the same piece where I used the same quantity of special tobacco manure that cost higher. The results were equally favorable with your Phosphate on my potatoes, and have tried all the fertilizers sold in this section, and your Phosphate comes out ahead every season with me. Shall use no other next year.

(Signed)

Truly yours,

JOHN S. WORTHINGTON.

22 YEARS' TEST.

E. FRANK COE, Esq.: BROAD BROOK, Conn., Dec. 12, 1892.

DEAR SIR:—I have used your Fertilizers on my farm for twenty-two years past, with satisfactory results always, especially as a hill and drill fertilizer. For tobacco it has no superior. Your Excelsior Guano for potatoes has given splendid results. As a dealer in fertilizers, and having sold nearly all the standard brands, in the past twenty-two years, I find your Phosphate stands equal to the best. Your goods are not only of uniformly good quality, but are also in very good mechanical condition.

Yours truly,

L. H. GRANT.

WHAT L. P. CHAMBERLAIN, PROF. AGR., SAYS.

E. FRANK COE, Esq.: MANSFIELD, Conn.

DEAR SIR:—Among the long list of fertilizers, both special and for general use, I am confident that there is none more economical or reliable than yours for our various crops and soils. I have used it for nearly all our garden and field crops during the present season, with uniformly satisfactory results. Its solubility renders it especially valuable for such as need an early start to insure them against our annual summer droughts, as well as those grown later in the season. In a general trial, with special manure, I have found it nearly equal to the best, and far superior to some. Its reliability, under a great variety of conditions of soil, climate and crop, and its uniform quality, commend it as a safe and economical fertilizer.

L. P. CHAMBERLAIN,

Prof. of Agriculture and Supt. of Farm.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
FINE AND DRY!**

46 POTATOES WEIGHED 60 POUNDS.

MR. E. FRANK COE: MIDDLETOWN, Conn., Sept. 2, 1892.

Mr. Markham has just dug 46 potatoes, weighing 60 lbs., from three rows where your Phosphate was used. With the other special brand of fertilizer, none of the potatoes were so large. F. P. B. & CO.

E. FRANK COE, Esq.: TALCOTTVILLE, Conn., Dec. 11, 1888.

DEAR SIR:—In reply to your favor, I will say: I have sold your Phosphate for fourteen (14) years past, and it has always given good satisfaction, and, as far as I have been able to learn, farmers in this part of the State like it better than any other article in the market. In fact, it has always given entire satisfaction among my own customers. It is known and called the "Old Reliable Frank Coe Phosphate." It pays the farmer 100 cents on the dollar every time. I made a special test of your Alkaline Bone on potatoes, and with great results. I harvested 350 bushels of very smooth, choice potatoes to the acre. I used it on corn, also, as a test, with equally satisfactory results. Also on tobacco, where it gave me a rapid growth and very profitable crop. I endorse your goods now as I always have. Yours very respectfully, L. C. GRANT.

ALWAYS GOOD.

MESSRS. JOHN AMIDON & Co.: WETHERSFIELD, Conn.

GENTLEMEN:—I have used the E. Frank Coe Phosphate for the past two years, and I used it fifteen years ago. It was always good, and I consider it now equal to any fertilizer in the market. Last season I used it on potatoes and onions, and although last year was not generally considered a potato year, I had as fine a crop as I ever raised, or as was harvested in this vicinity the past season, and several of my friends have told me that my potatoes are the finest in town. I had a splendid yield of onions—one of the finest crops that I ever raised. I don't want any better fertilizer than the E. Frank Coe Phosphate.

MARTIN WELLS.

IN USE 20 YEARS AND ALWAYS GOOD.

E. FRANK COE Co.: EAST HADDAM, CONN., Sept. 20th, 1893.

GENTS:—I have used and sold 20 to 50 tons of your Fertilizers every year for the past twenty years and have always found them reliable and satisfactory. They give better results, and are more satisfactory than any fertilizers I have ever used.

Very respectfully, W. C. REYNOLDS.

AS GOOD AS THE BEST.

MR. E. FRANK COE: BANKSVILLE, Conn., Sept 26, 1890.

We, the undersigned, have tried Frank Coe's Potato Fertilizer by the side of—, and consider it just as good as the best we have ever tried.
W. J. & T. BRUNDAGE.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
FINE AND DRY!**

MESSRS. E. FRANK COE CO.:

ARLINGTON, R. I., Oct. 11, 1893.

We have sold your goods this year with satisfaction to our customers. Mr. A. A. Waterman, one of our best farmers, used your High Grade Phosphate on piece fodder corn. The land was old, run out and considered poor; he used no stable manure, depending entirely on Coe's Phosphate. Sixty days from time planting, corn averaged 6 feet high and Mr. Waterman says it is the best corn he ever raised, and many say it is the best corn ever seen in this section. Personally we have known your Phosphate for 20 years, and this test only proves what we already knew.

E. L. FRENCH.

WILL HANDLE NO OTHER.

MR. E. FRANK COE, New York:

LAFAYETTE, R. I., Sept. 1, 1892.

DEAR SIR:—We have handled your High Grade Phosphate for the past two seasons with great satisfaction to our trade. We shall use no other for the coming season, as where it has been used once it is called for again.

Yours truly,

DAVIS & SLOCUM.

BEATS THEM ALL.

PORTSMOUTH, R. I., Sept. 12, 1890

We have used E. Frank Coe's Red Brand Fertilizer for three years side of other brands for potatoes and garden truck. We can honestly say it beats them all, and shall use no other next season.

Yours respectfully,

R. M. & E. B. AYLER.

SEVENTY WELL PLEASED CUSTOMERS.

MR. E. FRANK COE:

NEWPORT, R. I., Sept., 1890

DEAR SIR:—Having sold your High Grade Fertilizers to over seventy customers on Rhode Island, I have not found one who was not more than satisfied with the results, and wants more next year.

Yours respectfully,

EDWARD A. BROWN.

COE'S FOR PROFIT.

A. MANCHESTER, Adamsville, R. I.:

TIVERTON, R. I., Sept., 1891.

DEAR SIR:—We have used many kinds of fertilizers, but the E. Frank Coe's Fertilizer is the best we ever used and the only kind we ever bought that yielded us a good profit.

Yours truly,

JAMES H. MANCHESTER,
T. FRANK MANCHESTER.

GOOD FOR ALL CROPS.

ADAMSVILLE, R. I., Sept. 23, 1891.

DEAR SIR:—I have used E. Frank Coe's Fertilizers for two years, and am satisfied that for strawberries, beans, and, in fact, for a general fertilizer, it is the best I have ever used, and I have used many different kinds.

Yours truly,

BENJAMIN T. HEAD.

IN THE LEAD.

BRISTOL FERRY, R. I., Sept. 1, 1890.

Have used all the leading fertilizers on the market for potatoes, and I can say the E. Frank Coe's Red Brand Excelsior Guano is equal to any I ever used.

Yours truly,

WM. L. SISSON.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
— FINE AND DRY! —**

TESTIMONIALS

FROM

New Brunswick and Nova Scotia.

MOST GRATIFYING.

E. FRANK COE, Esq.:

STELLARTON, N. S., Sept. 1, 1890.

I purchased from your agents, of New Glasgow, the past season, your High Grade Ammoniated Bone Super-Phosphate, Red Brand, and Potato Fertilizers, and have used them on corn, potatoes and vegetables with results that were most gratifying. My cabbages surpass any in the market for size and solidity.

Yours, etc.,

J. B. MCKAY.

MORE THAN SATISFIED.

MR. E. FRANK COE: **MILLSTREAM, Pictou Co., N. S., Aug. 30, 1890.**

GENTLEMEN:—I used E. Frank Coe's Ammoniated Bone Super-Phosphate, bought of you last spring, on potatoes, with the most satisfactory results, the potatoes being splendid, and a good crop. I am more than pleased, as last year and the year before I had two different makes of fertilizers, and last year's was worthless, and the year before not much better. Coe's is in fine condition for working.

Yours, etc.,

ALEX McDONALD.

FACTS WORTHY OF CONSIDERATION.

MR. E. FRANK COE:

EUREKA, Pictou Co., N. S., Sept. 3, 1890.

DEAR SIR:—I not only feel it a pleasure, but a duty to inform you that the results I obtained by the use of E. Frank Coe's Fertilizer, for the last three years, are very highly satisfactory indeed. I believe it to be better than is claimed for it. I had previously tried three other kinds manufactured in this Province, and I honestly believe, if I had ploughed a \$20 note down every spring, the result would have been as good. I hope you will use your influence with the farmers to compel the Government to place it on the free list. You are at liberty to use this in any legitimate way to introduce Coe's Fertilizer.

Yours respectfully,

ISAAC McNAUGHTON.

FREDERICTON, N. B., October, 1892.

This season we have handled fifty tons of the E. Frank Coe Fertilizers, and the results are very satisfactory. We expect to sell a larger quantity next year, and we do not hesitate to recommend the goods as first class in every respect.

THE D. W. HOEGG CANNING CO.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
— FINE AND DRY! —**

EIGHT YEARS AND NOT A COMPLAINT.

NEW GLASGOW, N. S., Sept. 12, 1893.

E. FRANK COE COMPANY, N. Y.:

GENTLEMEN:—We have handled your fertilizers for the past eight years, and before that we sold three or four different makes, with poor satisfaction to ourselves and a great many complaints from customers; but since we have sold the "Coes" we have yet to hear of a complaint. Time proves the test, and we are still selling Coes, and will continue to do so as long as it keeps up to the present standard.

Yours truly, MAC GREGOR & CO.

SUCCESSFUL ON ALL CROPS.

UPPER GAGETOWN, Q. C., Oct. 1893.

DEAR SIR:—I used your Fertilizers on cabbage, turnips, carrots, beets, cucumbers and squash, and I am well satisfied with the results obtained. Wishing you success which your goods deserve.

I remain, Yours, C. H. GUNTER.

EXPENSIVE EXPERIMENT.

BURTON, S. C., Oct. 1893.

I used your Fertilizers on potatoes and turnips with special good results. I had a splendid crop of all kinds of potatoes, and used nothing but your Fertilizers. I planted turnips with your Fertilizer and can say I never had anything that did better, one part of a row I put none on and will lose about four barrels of turnips by the experiment. I consider your Fertilizer had done remarkable considering the long drought we had in the middle of the season, and my crops would have been very light had I not used it. Wishing you all the success possible.

GRASS AND GRAIN BRAND FOR BUCKWHEAT.

JERUSALEM, K. C., Oct. 1893.

DEAR SIR:—Used your Grass and Grain Super-Phosphate on four acres of buckwheat, and had over 80 bushels, and I would say that it is counted a splendid yield, considering the poor season which it was for buckwheat, and it being planted late.

FRANK J. DAY.

**THE E. FRANK COE FERTILIZERS ARE ALWAYS IN THE
BEST MECHANICAL CONDITION.
— FINE AND DRY! —**

AHEAD OF ALL OTHERS, DOMESTIC AND FOREIGN.

BURTON, S. C., Sept. 1893.

DEAR SIR:—We make a specialty of kidney potatoes. We used some of your Fertilizers last spring, and consider it has given us better satisfaction than any we ever used, and we have used some four or five kinds, both domestic and foreign makes. We are well satisfied with the results we obtained this season, and cordially recommend them to any of our brother farmers.

We remain, Yours very truly, MCGARR BROS.

DRY WEATHER BUT GOOD CROP.

GAGETOWN, Q. C., Sept. 1893.

Your Fertilizers being a new article in this part of the country, I felt a little timid in taking hold of it, but I bought some and used it on my potatoes, and had not the season been so dry I would have had a splendid crop, but drought and all I had over an average crop.

FRASER FOX.

SAME OLD STORY.

GAGETOWN, Q. C., Oct. 1893.

DEAR SIR:—Very favorable reports have been received from all who have used your Fertilizers in this section. Although the season has been dry, crops have been good where your Fertilizers were used. Hoping to increase the sales next season

I remain, Yours, J. W. DICKIE.

HIGHLY RECOMMENDED.

UPPER GAGETOWN, Q. C., Oct. 1893.

DEAR SIR:—I used your Fertilizers on all kinds of garden stuff, corn and squash, with satisfactory results. I can confidently recommend its use to all farmers.

Yours, HENRY COY.

SATISFACTORY TO ALL.

OREMOCTO, S. C., Oct. 1893.

DEAR SIR:—I handled your Fertilizers last season, much to the satisfaction of the farmers in this section of the country, and will continue to do so, as long as they are to be had.

T. J. MCCAFFREY.

How Much to Use and How to Apply the "EXCELSIOR" GUANOS.

For Potatoes.—Most excellent results are obtained from the application of 500 to 600 pounds of the "Excelsior" to the acre on fairly good soil, but 1000, and even 1200 to 1500 pounds per acre can be applied in perfect safety, and are used with the most astonishing and satisfactory results.

Apply by hand a common wooden pailful of the "Excelsior" to 40 or 50 yards in length in the drill. A chain dragged in the drill after strewing the guano will mix it sufficiently with the soil.

Cabbages and Cauliflower.—Broadcast 600 to 1000 pounds per acre, and apply 300 to 500 pounds in drill or hill at time of planting.

Asparagus.—Broadcast upon old beds 1000 to 1200 pounds per acre, and work in by cultivation.

Sweet Corn and Tomatoes.—Apply in the hill 400 to 500 pounds per acre.

Field Corn.—Apply 300 to 400 pounds per acre in the hill at time of planting, mixing well with the soil.

Beans and Peas.—Mix with the soil and apply in drill, 400 to 600 pounds per acre.

Celery and Spinach.—For spinach, broadcast 800 to 1200 pounds per acre. Celery, broadcast 500 to 600 pounds, and apply 500 to 600 pounds in the trench.

Turnips.—Broadcast 800 to 1000 pounds per acre, and brush in or cover lightly by the best means at hand.

Tobacco.—After the ground has been plowed, and just before harrowing the last time, 400 to 500 pounds should be sown to the acre, broadcast, then at time of setting the plant apply a handful to each hill, care being taken to have the guano well mixed with the soil.

Onions.—After the ground has been prepared by deep plowing and thorough pulverization, sow 500 to 1000 pounds of the Excelsior Guano to the acre. The guano should be harrowed or brushed in or applied by drill used for that purpose.

Directions for using the Peach Tree, Fruit and Grape Vine Fertilizer.

For Peach Trees.—Apply 300 to 500 pounds to the acre by drill, or broadcast 400 to 600 pounds and harrow in. The months of June and July is a good time to apply the Fertilizer, also in the early spring when the orchard is not in cultivation.

For Grape Vines.—Upon old vineyards apply broadcast, as early in the spring as the ground is in condition to work, 1000 to 1500 pounds to the acre and cultivate as usual. Apply at time of setting your vines 500 to 800 pounds per acre, mixing well with the soil. An application of 300 to 500 pounds in the early spring of each year will pay richly.

DIRECTIONS

FOR THE USE OF EACH OF THE FOREGOING ARTICLES, EXCEPT THE "EXCELSIOR" GUANOS.

I have obtained from the most reliable sources the following, as the best and most successful modes now in use for the application of Fertilizers, and, while I do not deem it advisable to recommend a strict adherence to any specific directions to be followed under all circumstances, the following may be adopted in safety by all who may desire instructions in this direction.

These Bone Manures are not "stimulants" so called, which force the crop in the early stages of its growth, and fail when most needed, but they contain all the essential elements of the most complete manures, and each of them will not only carry any crop through to perfect maturity, but will show effectually in the grass crops which follow.

The drill with Fertilizer attachment is the better mode of applying Fertilizers, and should be used in all cases where practicable.

My goods are in as nearly perfect condition for drilling as any in the market.

For Wheat.—Drill with the grain 350 to 500 pounds of the Fertilizer per acre. If applied broadcast, use 400 to 600 pounds to the acre, and harrow in with the grain.

Oats.—Drill in with the seed 300 to 400 pounds per acre, according to quality of soil, or if sown broadcast, apply 300 to 500 pounds per acre, and harrow in.

Barley.—Use either brand of the Super-Phosphate or the Alkaline Bone, and drill in 400 to 550 pounds per acre. Increase the quantity if sown broadcast, and harrow in.

Corn.—Those who have given the use of Fertilizers on this crop the most thorough test, advise the broadcasting of about 200 pounds to the acre before planting, and harrow in; then, at time of planting, apply 200 to 250 pounds to the acre in the hill, scattering the phosphate somewhat and covering it slightly with soil (with the foot) before dropping the seed. By this method a vigorous start is insured, and the corn is speedily placed beyond the power of worms to destroy.

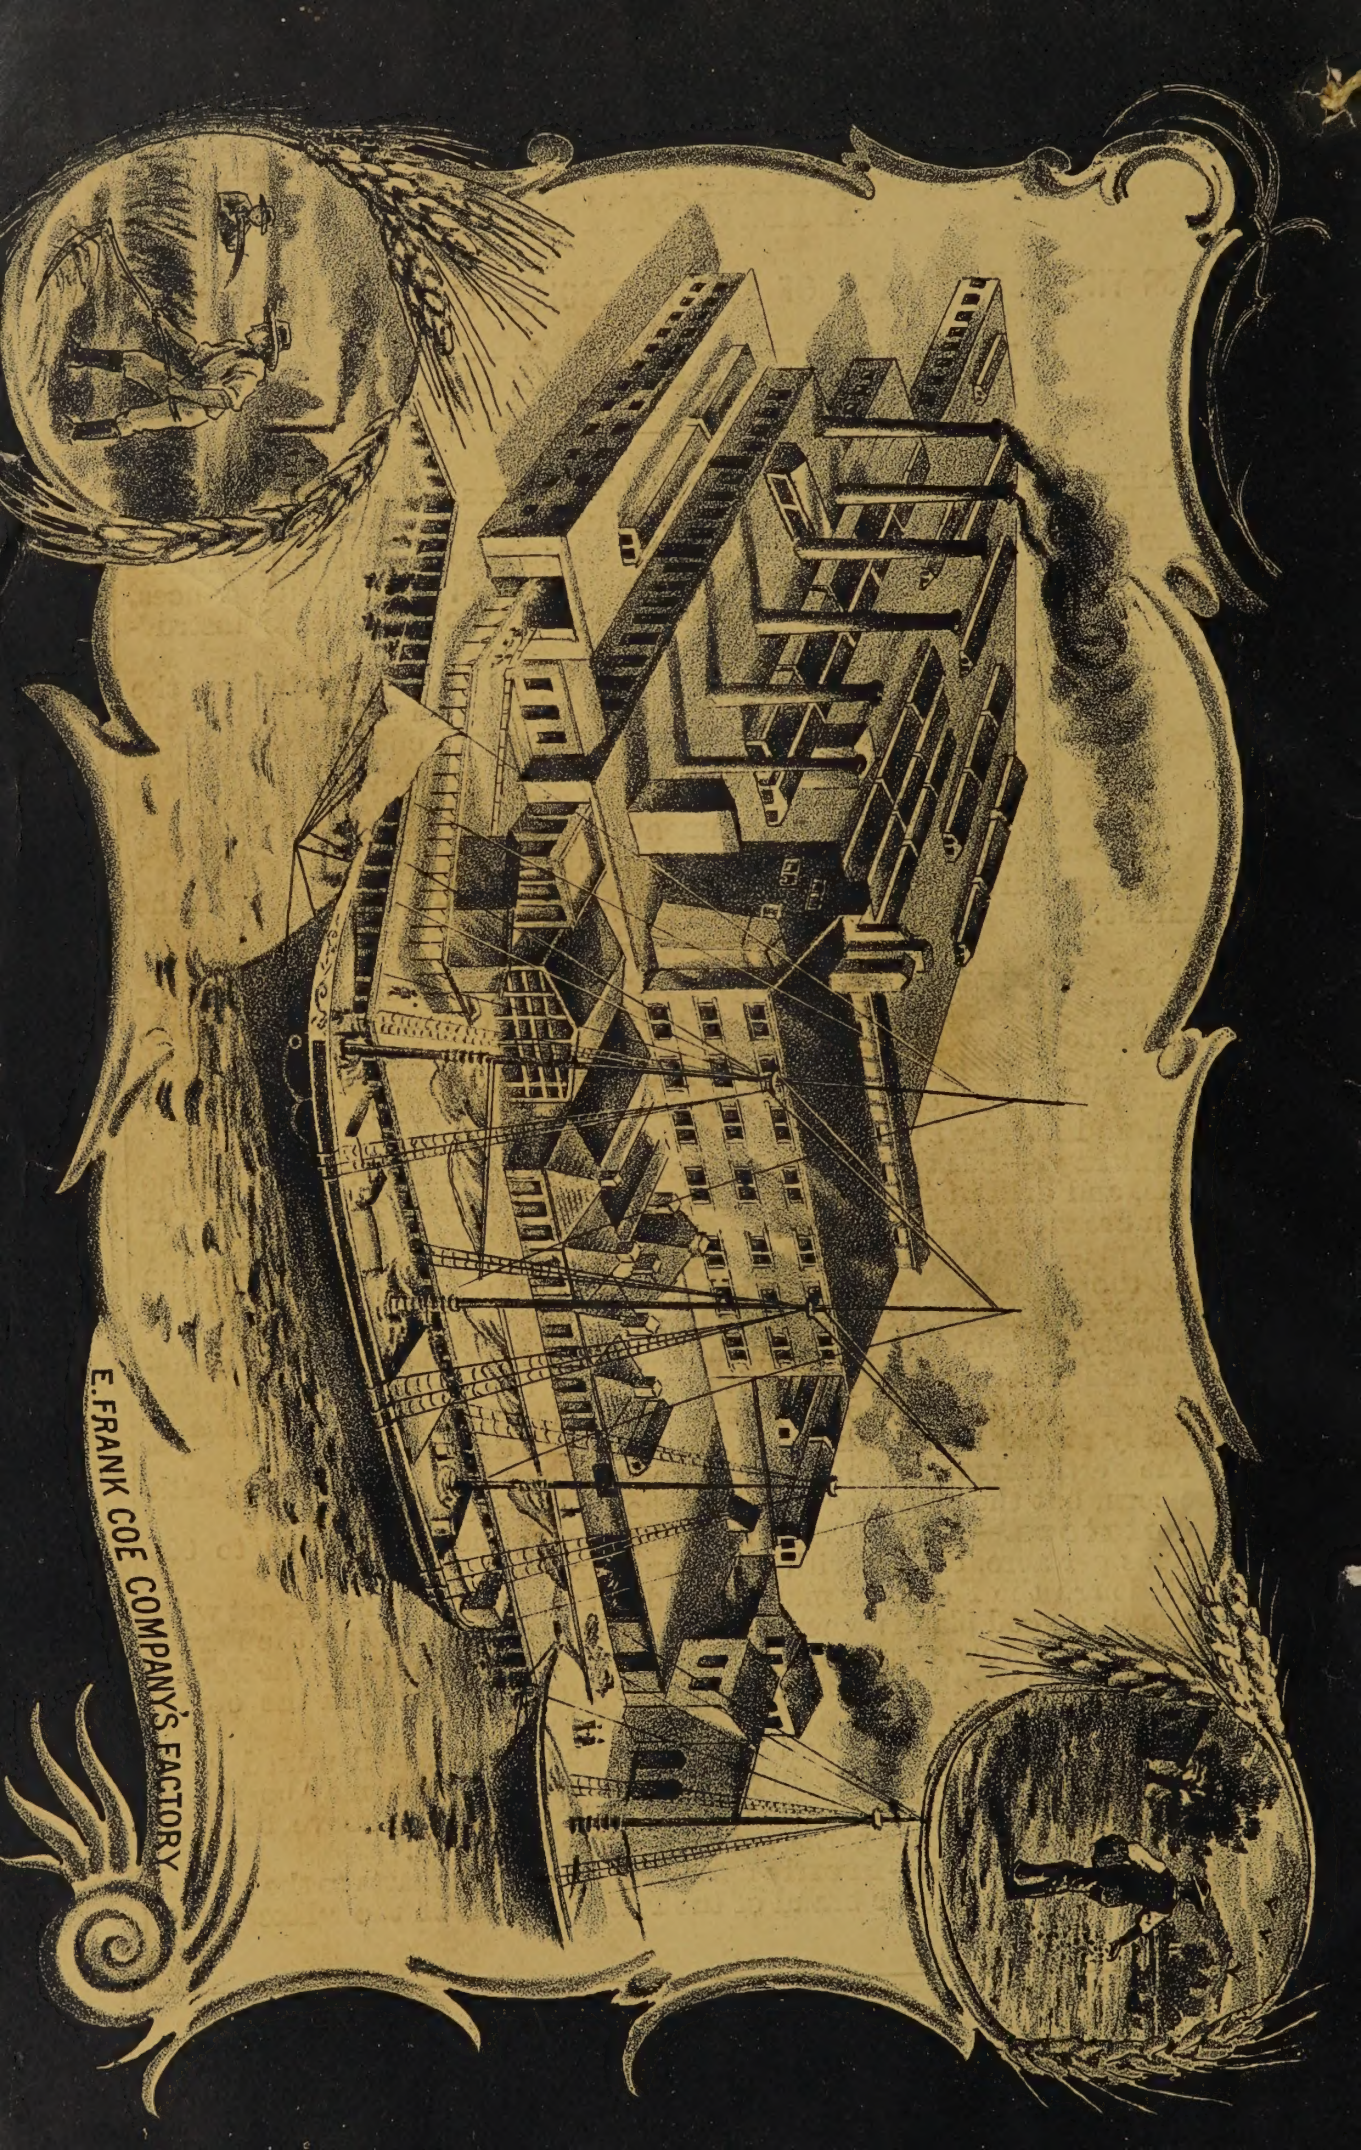

The Fertilizers should not be allowed to come in direct contact with the corn, but the above precautions should be carefully observed.

Potatoes.—Apply the Potato Manure either alone, 500 to 600 pounds per acre, or mix with stable manure.

Although the Fertilizer may be used in safety directly in contact with the seed, a good plan is when the furrows are open to scatter the Fertilizer along the row, then run a cabbage plow through, mixing the Fertilizer somewhat with the soil, drop the potato, and cover in the ordinary way.

Tomatoes.—Use a small handful to each plant, well mixed with the soil at time of transplanting. Most excellent results may be relied upon from the use of either of the Super-Phosphates as above, but the "Excelsior" Guano has perhaps no equal for this crop.

Strawberries.—In early spring apply 8 to 10 quarts to the square rod, broadcast, of either brand of the Phosphate or of the "Excelsior" Guano.

E. FRANK COE COMPANY'S FACTORY
